SUMIT KUMAR

Full Stack Developer

React.js | Next.js | TypeScript | PHP | Laravel | PostgreSQL

Mohali, Punjab, India | +91 9050755520 | sumitkp333777@gmail.com

Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building and deploying production web applications with React.js, Next.js (TypeScript), Laravel and PHP, backed by MySQL and PostgreSQL. Strong in REST API development, database schema design, data normalization and architectural design, with hands-on experience automating processes and implementing ETL workflows to analyze heavy datasets efficiently. Proficient in AI-assisted development tools such as Cursor, Claude Code and OpenAI APIs to improve coding speed and quality. Comfortable with Docker, Git and Linux deployment; mentored 2 trainee developers on live projects.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP, SQL

Frontend: React.js, Next.js, Vue.js, HTML5, CSS3, Tailwind CSS, shadcn/ui, Responsive Design, State Management

Backend: Laravel, RESTful APIs, API Integration, Swagger/OpenAPI, OAuth 2.0, JWT Authentication, Role-Based Access Control (RBAC), Cookie-Based Authentication, Service-Repository Pattern

Databases and Data Engineering: MySQL, PostgreSQL, DuckDB, Database Schema Design, ETL Pipelines, Parquet

DevOps and Deployment: Docker, Git, GitHub, GitLab, Linux, SSH, AWS S3

Integrations and AI: OpenAI API, Gemini API, Claude Code, Cursor, Payment Gateway Integration (Stripe/Braintree), CRM and Email Integrations, Social Media APIs

Tools: Postman, Mailtrap, Vercel, Render, SendGrid, Twilio

WORK EXPERIENCE

Full Stack Developer | Duskbyte, Mohali Nov 2024 - Present

- Build and maintain production applications with Laravel, React.js, Next.js (TypeScript), Vue.js, MySQL, PostgreSQL and REST APIs.
- Use AI-assisted tools daily (Claude Code, Cursor, OpenAI, Grok) for development, debugging and code review; manage all changes through Git branches and pull requests.
- Dockerize legacy applications and deploy them to Linux production servers over SSH, including environment and hosting setup.
- Automate ETL and large-scale data processing for a property-tax platform, using DuckDB for large analytical queries and data normalization; lead its migration to FastAPI and React.js.
- Diagnose and fix production bugs across Laravel APIs, React/Next.js frontends and database queries.
- Mentor 2 trainees on live projects: delegate feature work, review code and recommend tools, libraries and architectures.

Trainee PHP Developer | Duskbyte, Mohali May 2024 - Nov 2024

- Built and integrated REST APIs for a Buyer Commission platform (Laravel, React.js) and a Chrome extension; learned a production application end to end.

Trainee React Developer | Solitaire Infosys Pvt Ltd, Mohali Sep 2022 - Feb 2023

- Built Fitness Freak, a front-end React.js website using hooks, state management and reusable UI components.

PROJECTS

Free Tax Protest - Property-Tax Platform | freetaxprotest.com 2025 - 2026

Laravel, React.js, TypeScript, FastAPI, PostgreSQL, DuckDB, Docker, AWS S3, SendGrid

- Automated ETL for 20 raw files (50+ GB, 8.4M+ records, 500+ columns) using DuckDB and Parquet/JSONL into PostgreSQL; a full run now takes about 6 minutes.
- 2026: Learning FastAPI and leading the platform migration from Laravel to FastAPI + React.js (TypeScript): schema design, cookie-based auth, RBAC, admin and user features.
- Dockerized the app, moved the Blade/Vue admin panel to a Laravel REST API + React.js frontend, shifted file storage to Amazon S3 and migrated 70+ email templates to SendGrid dynamic templates.
- Implemented OAuth SSO (Laravel Passport) for user/admin switching; adapted workflows for Denton and Tarrant counties using isolated multi-county architecture.

Duskbyte Workspace - Internal Ticketing Platform | workspace.duskbyteapps.com

Next.js, TypeScript, Laravel, PostgreSQL

- Designed and built end to end (architecture, database, APIs, frontend, production deployment); used daily by the team.
- Replaced task tracking scattered across chats with centralized ticketing (assignment, status views), giving every task a clear owner and state.

Itwin.ai - AI Short-Form Video Platform | itwin.duskbyteapps.com

Laravel, Vue.js, TypeScript, MySQL, Docker, OpenAI GPT

- Built and deployed a platform that generates TikTok-style reels from prompts; integrated GPT, Pexels, Shotstack, HeyGen and Instagram, YouTube and Facebook publishing APIs.

Other Projects

- **BeatMyTicket:** Gemini API for vehicle challan management, Zoho CRM, Stripe. **Performant 365 CRE:** Microsoft login, roster management (service-repository pattern), Braintree subscriptions.
- **Lead Intake Workflow:** Dockerized Next.js (TypeScript), Supabase, Airtable. **DB Monitoring Tool (POC):** InfluxDB time-series data with React.js (TypeScript) dashboards.

EDUCATION

Bachelor of Computer Applications (BCA) | Chandigarh Group of Colleges, Landran Aug 2019 - Aug 2022

GPA 7.77 | Languages: Hindi (Native), English (Professional)
